THE CITY OF TORONTO.

The City of Toronto is situated on the northern shore of Lake Ontario, and is noted for its many fine public and other buildings and its well paved and beautiful shady streets and public parks. It is the educational and musical centre of the Province of Ontario, and the facilities afforded for receiving and shipping goods has made it a most desirable location for the establishment of manufacturing industries.

The government of the City is vested in a Council consisting of a Mayor, four Controllers and eighteen Aldermen. The Mayor and Controllers are elected annually from a vote of the entire City. The Aldermen are elected annually, three from each of the six wards into which the City is divided.

The Board of Control deals with all financial matters, regulates and supervises expenditure, revenue and investment, directs and controls departments, prepares specifications, advertises for tenders and awards all contracts for works, material, and supplies implements or machinery or any other goods or property required (subject to confirmation by the Council), inspects and reports to the Council upon all municipal works being carried on or in progress within the City, considers and forwards to Council the reports of the various standing and special committees, and controls all matters not designated as belonging or appertaining to any of the standing committees.

City Hall.

The City Hall, situated on Queen Street West, between James and Teraulay Streets, is a massive brown stone structure, and contains accommodation for the Council and Officers of the Municipality, for the Board of Education and officers connected therewith, and for the Courts of Justice (including the Police Court), and the various judicial officers connected therewith.

The site, expropriated in 1884, was originally intended for Court House purposes only, but it was subsequently decided to erect a combined City Hall and Court House thereon. The corner stone was laid on the 21st day of November, 1891, by the then Mayor, the late Edward F. Clarke, M.P., and the work of construction continued for eight years, the building being formally opened for public business on the 18th September, 1899, by the then Mayor, John Shaw, Esq.

In the tower of the building is a massive clock of British manufacture (the largest winding clock on the continent), and three bells, which are used for striking the quarter hours, half hours and the hours.

The dimensions, cost, etc., of the building ar as follows:

Frontage	289 fee
Depth	283 fee
Circumference	1,328 fee
Total floor space	5.40 acre
Height of tower from sidewalk.....	300 fee
Diameter of clock face.....	20 fee

Weight of bells: smallest (quarter bell) 1,904 pounds; next largest (quarter bell) 3,339 pounds; largest (hour bell), 11,64 pounds.

The total cost (including site, clock, bells, an furniture), will not exceed $2,500,000.

City Assets and Revenues.

(*From the City Treasurer's Budget.*)

In considering the City debt, the value of the property and other assets possessed by the City should not be overlooked. The estimated value of this property is over $15,000,000, and a large amount of it is revenue producing. This valuation is exclusive of all the public works and services of the City, which have been provided at heavy cost to the taxpayers, and, though not available assets, are required for public use and convenience. The water lots owned by the City, the walks and gardens and other leasehold property, with the Market Block, yield an annual revenue of about $106,000, which will increase from year to year as the leases mature and are renewed. The total revenue from the City properties, exclusive of the Water Works, is about $106,000, and at 3½ per cent. represents a capital of over $3,000,000. In addition the City derives a revenue from licenses, police court fines, cattle market and weigh-house fees, and the street railway service (exclusive of that derived from the Water Works), of about $482,000. The estimated revenue this year from the Water Works is $450,000. These, with other revenues, bring the annual revenue of the City to upwards of $1,269,734, exclusive of the amount raised by taxation.

Births, Marriages and Deaths.

The number of births, marriages and deaths in the City of Toronto during the year 1904, as shown by the Registration returns, is as follows:

Births	5,283
Marriages	2,867
Deaths	3,886

All births and marriages must be registered at the City Clerk's office, City Hall, within 30 days from the occurrence thereof.

Deaths must be registered at the same office before a permit to bury can issue.

Parents, or occupants of dwellings where births occur, are required to register births.

Clergymen officiating are required to register marriages.

Physicians attending are required to certify as to deaths.

Neglect or failure to register in either case renders parties liable to a fine not exceeding $10 and costs.

Public Health.

The death rate of the City of Toronto is 17.46 per thousand.

The public hospitals in the City of Toronto are located as follows:

Toronto General Hospital, Gerrard Street East

St. Michael's Hospital, Bond Street.

Sick Children's Hospital, College Street.

Western Hospital, Bathurst Street.

Grace Hospital, College and Huron Streets.

St. John's Hospital, Major Street.

Riverdale Isolation Hospital for Contagious Diseases, Gerrard Street East.

The Emergency Hospital is a branch of the General Hospital and is situated on Bay Street.

The ordinary ambulances for non-contagious diseases are under the control of the Police and

answer to the call of "Main 222." The ambulance for removing contagious diseases is in connection with the Health Department and answers to "Main 1746."

In all complaints of nuisances—drop a post card to the Health Department.

In case of accident, the patient, if of adult age and conscious, has the right to state to what hospital or where he wishes to be taken. In cases of children or those in an unconscious condition, the medical attendant, and in cases where there is no medical attendant, the Police, are supposed to direct the ambulance.

In cases where a person is found dead and no medical man has been in attendance, a coroner should be notified, who has authority to issue a warrant to bury after view, or order an inquest, as he may deem necessary.

Local Improvement Works.

When the owners of property on any street r lane desire a sewer, sidewalk, pavement or urbing, or when the property owners in any ocality desire the opening, widening, extension r diversion of any street or lane, application ould be made to the City Engineer for a form f petition to the Council for the work. When ich petition is signed by two-thirds in num- er of the owners representing more than one- alf in value of the property to be benefited by ie work or improvement, the Council may roceed therewith and assess the cost against ie property benefited.

If the names of two-thirds in number of the roperty owners or the names of those repre- nting more than one-half in value of the roperty cannot be obtained, the petition may evertheless be presented to the Council, and the Council on the recommendation of the ity Engineer finds that the work is neces- ry, and in the public interest, it may direct at it be proceeded with, unless a majority the property owners interested representing ore than one-half of the value of the prop- ty to be assessed petition against the pro- osed work or improvement within a month

after the Council gives notice of its intention to proceed with such work.

Notwithstanding any petition to the contrary, the Council may, by a two-thirds vote, proceed with the construction of any stone, concrete, brick or wooden sidewalk, or (if recommended by the Local Board of Health), with any sewer, and assess the cost of any of such works against the property benefited.

The following tables prepared by the City Engineer shew the approximate annual cost of different classes of permanent pavements and sidewalks. Similar information as to sewers cannot be given owing to variations in the cost of excavating different grades of soil. The City Engineer, however, will furnish an estimate as to the cost of sewers upon application being made therefor by property owners interested.
